NEW PARTS FOR MAZDA ROADSTER (ND5RC) 2016 +

Light Weight Flywheel

Super Light Chromoly Flywheel :

This Flywheel is designed and machined precisely for even rotation, delivering a balanced drive train even at low revolutions.

Response :

Since the flywheel is much lighter than the factory unit, your engine will feel much more responsive when revving and climbing through the RPM's while accelerating. Depending on the application, the lighter flywheel is less for the engine to rotate, making it easier to keep the engine in the highest power band.

Faster Times :

This flywheel can help achieve faster 0 - 400 m acceleration times and mid - range gear accelerations.

MAZDA : ROADSTER - ND5RC

Part # 429 023 A

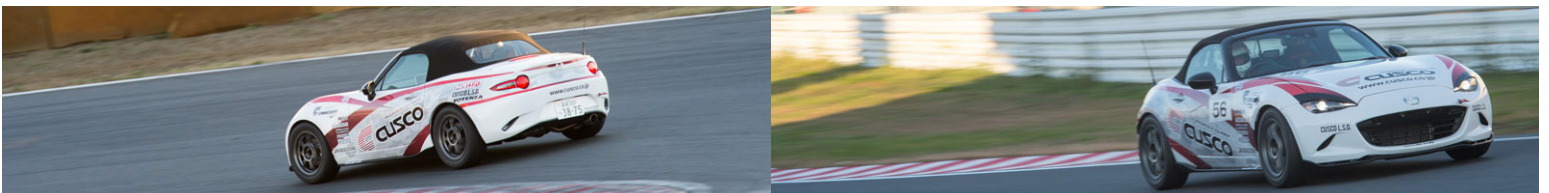

Weight : 4.5 kg (9.9 lbs)

Stock flywheel : 7.3 kg (16.1 lbs)

Price : \$787 MSRP

JAN : 4996338085429

Made in Japan
